MG Operations & Strategy Partners

MG ACADEMY · SCOR DIGITAL STANDARD

TRAINING · ASSESSMENT · TRANSFORMATION

One language for your supply chain, and a roadmap your team owns.

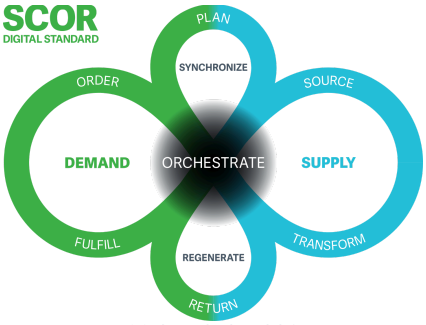

SCOR DS training and transformation taught on your own processes and data, by an ASCM Authorized Instructor and Consulting Partner.

2x to 6x	30%	0.5% to 1%	27
return on investment in the first year*	faster digital transformation implementations*	ongoing profit improvement per year*	focus areas in the ASCM maturity assessment, across 7 domains

WHAT IS SCOR DS?

The Supply Chain Operations Reference Digital Standard is ASCM's global standard for supply chain process, performance, practices and skills. Version 14 adds **Orchestrate**, which links supply chain strategy and business rules to every process, and organizes execution into seven processes: Orchestrate, Plan, Order, Source, Transform, Fulfill and Return.

- ✓ A common language across planning, sourcing, manufacturing and logistics
- ✓ Metrics from Level 1 to 3, tied to strategy and the P&L
- ✓ SCORmark benchmarks against industry peers, plus a Digital Capabilities Model to pace technology
